

## 200-2000ML PET BOTTLE WATER WASHING FILLING CAPPING MACHINE

### Description

The XGF series 200-2000ml PET Bottle Water Washing Filling Capping Machine is a fully automatic three-in-one solution that integrates rinsing, filling, and capping in one compact unit. Made of high-grade SUS304 stainless steel, it is designed for efficiency, hygiene, and easy maintenance. With flexible bottle changeover and precise filling control, it is ideal for medium to large-scale beverage production.

### Suitable for

Pure water, mineral water, RO water, sparkling water, tea, non-carbonated drinks

## Machine Features

- **Three-in-one design** – Rinsing, filling, and capping integrated for space and labor saving
- **Spring filling head** – Accurate filling, no dripping, high hygiene
- **Quick bottle changeover** – For bottles of different sizes and shapes with the same neck design
- **Precise liquid level control** – Mechanical valve with reflux pipe, optional flowmeter for flexible volume change
- **Optimized for larger bottles** – Valves with liquid-level sensors ensure stability
- **Automatic rinsing** – Electronic valve system enables bottle washing without operator intervention
- **High-precision capping** – Constant torque magnetic head for stable results and low rejection rate
- **Comprehensive CIP system** – Internal cleaning and sterilization for hygiene assurance

## Filling System

- Mechanical valve
- Liquid level detection valve
- Flow meter
- Electronic Weighing
